PROFESSIONAL SUMMARY

Motivated and technically skilled graduate in Electronics and Telecommunications Engineering with hands-on industrial training and active software development experience. Proficient in building mobile and web applications using Flutter, React Native, and PHP, backed by MySQL and Supabase. Strong foundation in electrical systems, electronic equipment maintenance, and troubleshooting. Detail-oriented, reliable, and ready to contribute effectively in both technical and development-focused environments.

EDUCATION

Diploma in Electronics and Telecommunications Engineering (Graduated 2026)

Dar es Salaam Institute of Technology (DIT) | 2023 – 2026

Certificate of Secondary Education Examination (CSEE) — Ordinary Level

Saint Dominic Savio Secondary School | 2017 – 2020

WORK EXPERIENCE

Junior IT Intern — *C.A.R.D. Informatics Ltd, Dar es Salaam* April 2026 – July 2026

- Developed a cross-platform Flutter mobile application for company operations, from design to deployment.
- Built and maintained PHP-based web applications with Supabase as the backend platform.
- Maintained existing PHP web platform, ensuring stability, performance, and data integrity.
- Applied RESTful API design principles across mobile and web surfaces.

Industrial Practical Trainee (IPT) — *TANESCO, Dar es Salaam* 2024 – 2025

- Assisted in installation and maintenance of electrical and telecommunications systems.

- Performed equipment inspection, fault diagnosis, and basic troubleshooting.
- Worked with wiring systems, control panels, and communication equipment.
- Used testing tools such as multimeters and diagnostic instruments.
- Followed technical safety standards and operational procedures.
- Supported senior technicians during system repairs and maintenance.

TECHNICAL SKILLS

Mobile & Web Development

- Flutter — cross-platform mobile development (Android & iOS)
- React Native — mobile application development
- PHP — server-side web application development and maintenance
- Java — application development
- phpMyAdmin — database administration and management (MySQL)
- Supabase — backend-as-a-service platform (auth, storage, REST API, built on PostgreSQL)

Blockchain & Cryptographic Consensus

- Proof of Work (PoW) — mining mechanics, hash-puzzle validation, Nakamoto consensus
- Proof of Stake (PoS) — validator selection, stake-weighted consensus, slashing conditions
- Gossip Protocol (Gossip-to-Gossip) — epidemic message propagation, eventual consistency in distributed systems

Electronics & Electrical Systems

- Electrical and electronic system troubleshooting and preventive maintenance
- Reading and interpreting circuit diagrams
- Testing and diagnostic tools: multimeters, oscilloscopes
- Knowledge of safety and compliance procedures

SOFT SKILLS

- Teamwork and collaboration

- Strong work ethic and self-motivation
- Attention to detail
- Ability to work under pressure
- Good communication skills
