PROFESSIONAL SUMMARY

ETE diploma graduate and software developer building production mobile and web applications in Tanzania's fintech space. Designed and shipped a Flutter lending app at C.A.R.D. Informatics Ltd and independently developing a cross-platform mobile application (React Native · Node.js · MongoDB) with tiered user roles, KYC onboarding and real-time tracking. Grounded in electrical and telecommunications systems through hands-on TANESCO industrial training.

PROJECTS

Fintech Mobile Platform

React Native / Expo · Node.js / Express · MongoDB · Firebase | 2026 – Present

- Built a cross-platform mobile app with a Node.js / Express and MongoDB backend and Firebase services.
- Built a tiered role-based user hierarchy with a multi-step KYC registration wizard, PIN authentication, and real-time balance tracking across all user roles.
- Implemented Swahili i18n, dark/light theming, skeleton loaders, and per-user transaction limit controls.
- Backend deployed on Render; React Native / Expo frontend in active development.

C.A.R.D. Informatics Mobile App and web page

Flutter / Dart · Firebase · Supabase · PHP | 2025

- Cross-platform lending app covering auth, loan applications (employed & self-employed), credit offers, and a user dashboard.
- Matched mobile forms to the PHP web platform with conditional fields, document uploads, and NIDA validation.
- Integrated with Supabase and PHP backend via RESTful APIs; maintained web platform stability and data integrity.

WORK EXPERIENCE

Software Developer / Junior IT Intern

C.A.R.D. Informatics Ltd · Dar es Salaam | 17 April 2026 – 31 July 2026

- Developed and deployed a cross-platform Flutter mobile application from design through production.
- Built and maintained PHP web applications with Supabase as the backend (auth, storage, REST API).
- Applied RESTful API design principles across mobile and web surfaces.
- Inspected equipment, diagnosed faults, and troubleshot electrical and telecommunications systems.
- Worked with wiring systems, control panels, and communication equipment; used multimeters and diagnostic instruments.
- Installed and maintained computers and software; diagnosed and resolved hardware and software faults.
- Provided technical support to users: software installation, IT equipment upkeep and troubleshooting.
- Set up and troubleshot network connectivity and communication equipment (Cisco networking).
- Worked with information systems and SMS alert workflows supporting daily operations.

Industrial Practical Trainee (IPT)
TANESCO · Dar es Salaam | 2023 – 2024

- Assisted installation and maintenance of electrical and telecommunications systems across TANESCO sites.
- Read circuit diagrams, operated control systems, and applied safety compliance procedures.
- Installed, inspected and serviced electrical and telecom equipment; preventive maintenance and fault diagnosis.
- Worked with Siemens automation and PLC control systems and building technology installations.
- Assisted with computer installation and maintenance, and network setup and troubleshooting (Cisco).
- Coordinated with contractors and site teams on installation and maintenance work.

TECHNICAL SKILLS

Mobile: Flutter / Dart (Android & iOS), React Native / Expo

Backend: Node.js / Express, PHP, Supabase (PostgreSQL · auth · REST), Firebase

Frontend: React, Vite

Databases: MongoDB, MySQL / phpMyAdmin, Firebase Firestore, Supabase

Networking: Cisco networking, Wireshark packet capture and analysis (DNS, TLS 1.3, ARP), telecom equipment

Security: Windows security assessment, Defender configuration, basic intrusion detection and monitoring

IT Support: Computer installation, maintenance and troubleshooting, software installation, technical support

Tools: Git, VS Code, Android Studio / Emulator

Hardware: Circuit diagnostics, multimeters, oscilloscopes, wiring systems, preventive maintenance

Microsoft Tools & Productivity Tools

- Microsoft Word: Document creation, formatting, and report preparation.
- Microsoft Excel: Spreadsheet management, data entry, formulas, and data organization.
- Microsoft PowerPoint: Presentation design and preparation.
- Microsoft Outlook: Email communication and calendar management.

Automation & Embedded: Siemens automation / PLC (S7-200 and newer models, ladder logic), Arduino / ATmega328P, RFID-RC522

EDUCATION

Diploma in Electronics and Telecommunications Engineering
Dar es Salaam Institute of Technology (DIT) | 2023 – 2026

Certificate of Secondary Education (CSEE) — Ordinary Level
Saint Dominic Savio Secondary School | 2017 – 2020
